DAVE NIEHAUS has been behind the microphone for every Mariner regular season game since joining the American League in 1977 — except one (his son Andy was graduated from Interlake High School in June, 1982). He is recognized as one of the best and most exciting broadcasters in the game of baseball (rated in the top four in major league baseball by SPORT Magazine), and he has become instantly identified with Mariner baseball wherever he goes. His expressions like "My Oh My" and "It will fly away" (for home runs) have become familiar throughout the Northwest.

Dave was born and raised in Princeton, Indiana, and is a graduate of Indiana University, where he worked for the campus radio station. He then went to work for the Armed Forces radio and TV service, calling the action for Los Angeles Dodger games before moving to New York to handle Yankee baseball as well as basketball and hockey from Madison Square Garden. After leaving the service, he returned to work in Los Angeles to broadcast the Dodgers, Rams and Lakers. From 1969-76, he teamed with Dick Enberg and Don Drysdale to call the action for the California Angels on KMPC Radio. Dave also broadcast UCLA football and basketball (1973-76). He now resides in Bellevue with his wife Marilyn and their children Andy, Matt and Greta.

RICK RIZZS (pronounced RIZ) joined the Mariners in 1983 and handled the play-by-play with Dave Niehaus on radio and television. Rizzs, 32, broadcast the Columbus (Ohio) Clippers of the International League (AAA) and Ohio State football for two seasons on WBNS Radio, where he also served as sports director. He is a 1975 graduate of Southern Illinois University in Carbondale. From 1975-80, Rick was the play-by-play announcer at the AA level with the Alexandria Aces, Amarillo Gold Sox and Memphis Chicks. He was named the Ohio "Sportscaster of the Year" in 1981 by the Ohio Sportscasters Association. Rick is single and resides in Bellevue, WA.

KEN BRETT begins his first season as the color commentator on all Mariner TV broadcasts during the 1986 season. A veteran of 12 major league seasons, Ken is one of only 3 pitchers to have played on 10 different clubs (Bos. '67-'71, Milw. '72, Phil. '73, Pitt. '74-'75, N.Y.Y. & C.W.S. '76, C.W.S. & Cal. '77, Cal. '78, Minn. & L.A. '79, K.C. '80-'81). Used primarily as a starter throughout his career, he compiled a 83-85 mark with a 3.93 ERA in 349 games. Remembered as one of the best hitting pitchers during his career (91-347/.262 with 10 career HRs), Ken set a major league record for pitchers in 1973 when he homered in 4 consecutive starts. He is also credited with being the youngest pitcher ever to pitch in a World Series game (Game #4 of '67 series -19 yrs, 20 days). He appeared in 3 League Championship playoffs ('74 & '75 with Pitt. and '80 with K.C.) and was the winning pitcher in his only All-Star game appearance (7-2 National League win at Pitt. in '74). Last season, he managed the Utica Blue Sox (Class A/N.Y.-Penn. League) to a second place finish (35-41).

CHANGES IN MAJOR LEAGUE WAIVERS —

The "trading deadline" is now **July 31.** Waivers are required for any inter- or intra-Major League assignment during the period beginning August 1 and ending at 5 pm ET the day after the end of the season. During the other ten months of the year no waivers are needed.

It will be easier to compute which players need waivers before they may be optioned: if three years (less one for each previously spent on option) have elapsed since the player *actually reported* to the Major Leagues for the first time, waivers are required. The date of actual physical reporting will be used as the benchmark instead of the date the player was first placed on a club's 40-man roster.

The procedure for outright assignments to the National Association remains unchanged from the 31st day of each season until August 31; during this period, ordinary waivers are required. However, from September 1 until the 30th day of the following season, special waivers are required:

The club must tender a special waiver request specifying that waivers are requested for the purpose of outright assignment to the National Assocaition. The claiming period, as with other waivers, is three business days, and an assignment pursuant to special waivers must be completed by 2 pm ET the seventh day after the waivers were secured.

Seventy-two-hour waivers, secured on players recalled not to report, continue unaffected except insofar as they no longer suffice for an outright assignment to the National Association during those times in the year when special waivers are required.

AMATEUR FREE AGENT DRAFT RULES

A BRIEF SUMMARY: Major League and National Association clubs meet twice a year for the purpose of drafting free agent player talent . . . The winter meeting is conducted by conference phone . . . Selection of a free agent entitles the club to the exclusive right of negotiation with that player for a specified period (from date of selection until 15 days prior to next draft meeting).

There are two phases to each draft meeting:

(1) Regular Phase — Clubs choose in inverse order of major league standings, selecting free agents and previous draftees who had not signed contracts but had instead enrolled in four-year colleges and since had either completed his junior year or become 21 years of age . . . Each organization may select only one player for each of its major league, AAA and AA rosters but is not limited to the number of picks for "A" level . . . Minor league clubs select in the same relative order as their parent clubs.

(2) Secondary Phase — Selection of free agents who had been drafted previously but who had not signed contracts before the negotiation right expired (except those draftees who had enrolled in a four-year college and had since graduated or become 21 years of age — now drafted in Regular Phase) . . . It is possible for a club to redraft a player whom it had been unable to sign after the original selection, but only with the express written consent of that player . . . The order of selection is by lot with the 26 major league clubs divided into two 13 team groups with the groups alternating having first selections in respective drafts.

HOW TO FIGURE

Batting Average — divide the total number of hits collected by a player by the total number of at bats. Example: Player A is 12-for-40 or .300.

Slugging Percentage — divide the number of total bases by the total number of at bats. Example: Player A's 12 hits include six singles (6), one doubles (2), two triples (6) and three home runs (12) for 26 total bases in 40 at bats and a .650 slugging percentage.

Earned Run Average — the total number of earned runs allowed by a pitcher is divided by the total number of innings pitched and then multiplied by nine for his per-game average. Example: Pitcher B has allowed 12 earned runs in 45 innings of work for a 2.40 ERA.

Fielding Average — the sum of putouts and assists is divided by the sum of putouts, assists and errors. Example: Player C has made 16 putouts and 24 assists and two errors. That's 40 putouts and assists divided by 42 chances for a fielding average of .952.

Won-Loss Percentage — divide the number of victories by the total number of games played. Example: 22 wins and 18 losses produce a winning percentage of .550.

Magic Number — determine the number of games yet to be played by the division leader, add one, then subtract the number of games ahead in the loss column of the standings from the closest opponent.

GROUND RULES

PHOTOGRAPHERS' AREA

The ball is "in play" if it hits the retaining fence and bounces back into the playing field.

HITTING ROOF OR SPEAKERS

Batted ball hitting roof or speakers in *Fair Territory* shall be judged fair or foul in relation to where it lands or is touched by a fielder. If caught by a fielder, the batter is out and base runners advance at their own risk.

Batted ball hitting roof or speakers in *Foul Territory* is a foul ball, regardless of where it lands or is caught. If the ball is caught by a fielder, the batter is out and base runners advance at their own risk.

Batted ball sticking in speaker in foul territory shall be called a strike. Batted ball sticking in speaker in fair territory shall be called "no play".

OUTFIELD AREA

Fairly batted ball clearing the wall is a home run. Fairly batted ball bouncing over the wall is a ground rule double.

DUGOUTS

A ball shall be considered "thrown into the dugout" only if it hits an object or person within the dugout. A thrown ball hitting the lip at the base of the dugout or the frame around the dugout and bouncing back into the playing field shall be "in play".

NAMING THE MARINERS

The nickname "Mariners" was selected by the ownership of the Seattle franchise after a "Name the Team Contest" that resulted in over 15,000 entries and over 600 different names being submitted.

When the name "Mariners" was chosen, all the entries suggesting the name were reviewed for their reasons (in 25 words or less).

The winner was Roger Szmodis of Bellevue, Wash. His entry read, "I've selected Mariners because of the natural association between the sea and Seattle and her people, who have been challenged and rewarded by it."

It's great to play with the pros.

Puget Power is proud to sponsor Mariners' play-by-play, and community baseball clinics that give kids a chance to play with the pros, too.
